CALIFORNIA WATER COMMISSION

George Gowgani, Ph.D., San Luis Obispo

Doug Priest
Executive Officer

The California Water Commission serves as a policy advisory body to the Director of Water Resources on all California water resources matters. The commission provides a water resources forum for the people of the State, acts as a liaison between legislative and executive branches of State government, and coordinates federal, State, and local water resources efforts.

INTRODUCTION

Bulletin 170 is an annual guide to the Department of Water Resources' publications. Every year, the Department issues technical bulletins, reports, and other publications documenting the measurement, protection, use, and management of California's water resources.

Every fifth issue of Bulletin 170 is a cumulative edition covering the past five years. Bulletin 170-99 includes summaries of, and an index to, all bulletins published from 1995 to 1999.

Bulletin 170-99 also includes summaries of all district/division reports, newsletters, and brochures issued during 1999. Bulletins and reports marked O.P. (out-of-print) may be viewed at the libraries listed on pages 63 through 70.

All publications may be obtained from:

Water Conditions in California

16 pages

Free

Bulletins in the 120 series (Reports 1 through 4) are published in February, March, April, and May updating records of statewide precipitation, snowpack, reservoir storage, and streamflow. The four issues forecast water supply for two periods: (1) the April-July snowmelt period and (2) the remainder of the water year (from the date of forecast to September 30).

Bulletin 132 Series: Management of the California State Water Project

*For information on Bulletin 132, contact the
State Water Project Analysis Office at (916) 653-4631.*

www.swpao.water.ca.gov/other/other.html

The Bulletin 132 series includes several annual publications about the status of the State Water Project. The main report covers the Project's continuing progress, water and power management, water conditions and deliveries, recreation, and fish and wildlife activities. Appendix B, *Data and Computations Used to Determine Water Charges*, is included.

Printed separately are Appendix A, the *Annual Financial Report*; Appendix B, *Data and Computations Used to Determine Water Charges*; Appendix D, *Costs of Recreation and Fish and Wildlife Enhancement*; and Appendix E, *Water Operations in the Sacramento-San Joaquin Delta*.

Appendix B: Data and Computations Used to Determine 2000 Water Charges

July 1999

141 pages

Free

This document includes the annual review of all water supply and financial aspects of the State Water Project as required and used by the State to determine the long-term water supply contractors' statements of charges paid.

Bulletin 132-98 Management of the California State Water Project

November 1999

338 pages

\$15

Bulletin 132-98 updates water supply planning, construction, financing, management, and operation of the State Water Project. This bulletin reports the progress of planning studies for future water and power supplies, construction progress, litigation, financing and future costs, the Monterey Agreement, the Bay-Delta Accord, and other areas of interest.

Bulletin 132 (continued)

Appendix A: 1998 Annual Financial Report

October 1998

14 pages

Free

This document contains the financial statements of the State Water Resources Development System. These are based on the principles and requirements of the Burns-Porter Act and provisions of the California Water Code, the Water Supply Contracts, and the Bond Resolution.

Appendix B: Data and Computations Used to Determine 1999 Water Charges

July 1998

141 pages

Free

Bulletin 132-97

Management of the California State Water Project

June 1999

370 pages

\$15

Bulletin 132-97 updates water supply planning, construction, financing, management, and operation of the State Water Project. It discusses water supply and delivery, Coastal Branch Phase II, implementation of the Monterey Agreement, and Delta planning and activities.

Appendix A: 1997 Annual Financial Report

October 1997

27 pages

Free

Appendix B: Data and Computations Used to Determine 1998 Water Charges

July 1997

140 pages

Free

Bulletin 132 (continued)

Bulletin 132-96

Management of the California State Water Project

August 1997

376 pages

\$15

Bulletin 132-96 updates water supply planning, construction, financing, management, and operation of the State Water Project. It discusses the 1995 floods, water supply and delivery, construction of the Coastal Branch Phase II, the Monterey Agreement, and Delta planning and activities.

Appendix A: 1996 Annual Financial Report

October 1996

27 pages

Free

***Appendix B: Data and Computations Used
to Determine 1997 Water Charges***

July 1996

139 pages

Free

Bulletin 132-95

Management of the California State Water Project

November 1996

406 pages

\$5

Bulletin 132-95 updates State Water Project operations and water deliveries, water supply planning, power operations, and management of the State Water Project. It also discusses the Monterey Agreement and the Bay-Delta Accord.

Appendix A: 1995 Annual Financial Report

October 1995

26 pages

Free

***Appendix B: Data and Computations Used
to Determine 1996 Water Charges***

July 1995

138 pages

Free

Bulletin 132 (continued)

***Appendix E 132-95: 1994 Water Operations
in the Sacramento-San Joaquin Delta***

June 1999

131 pages

\$5

This document describes SWP operations of the Sacramento-San Joaquin Delta and major SWP storage reservoirs as affected by water conditions, water demand, facility repairs, and Delta water quality standards.

***Appendix D 132-94: Costs of Recreation and
Fish and Wildlife Enhancement***

September 1997

20 pages

Free

This document includes the annual costs of all SWP recreational expenditures, including land acquisition.

***Appendix E 132-94: 1993 Water Operations
in the Sacramento-San Joaquin Delta***

June 1998

108 pages

\$5

California Water Plan: Bulletin 160-98

November 1998

850 pages

Volumes 1 and 2, and Executive Summary

First set is free. Subsequent copies cost \$25.

In 1957, the Department published Bulletin 3, the *California Water Plan*. Bulletin 3 was followed by the Bulletin 160 series, published seven times between 1966 and 1998 to update the *California Water Plan*.

Bulletin 160 assesses California's agricultural, environmental, and urban water needs and evaluates water supplies to quantify the gap between existing and forecasted future water demands and the corresponding water supplies. The series presents a statewide overview of current water management activities and provides water managers and others with a framework for making water resources decisions.

Bulletin 160 is updated and published every five years as mandated by law.

Subject Index To Bulletins Issued during 1995-1999

Note: References to a series are to annual bulletins issued from 1995 through 1999.

This index and those in Bulletins 170-69, 170-74, 170-79, 170-84, 170-89, and 170-94 comprise a comprehensive index to all bulletins issued by DWR and its predecessor agencies since 1922.

A

Agricultural water:

- drainage water problem, 160-98
- groundwater pumping, 160-98

*Report to the Legislature on the
Administration of the Safe
Drinking Water Bond
Law Program
January 1999
61 pages
Free*

This annual report to the legislature summarizes the activities of the Department of Water Resources and Department of Health Services to administer the California Safe Drinking Water Bond Laws.

*1993 Survey Report of Land Use
in the Upper Santa Ana
River Drainage Area
October 1999
39 pages
Free*

This report contains the results of the Department's 1993 survey of the Upper Santa Ana River drainage area, the fifth survey of this area conducted by the Department since 1955.

*Groundwater Management in California—A
Report to the Legislature Pursuant
to Senate Bill 1245 (1997)
December 1999
63 pages
Free*

This report lists agencies with underground water plans adopted either pursuant to different sections of the Water Code or as a result of a court decision.

NORTHERN DISTRICT Red Bluff

For information about Northern District publications, call (530) 529-7300.

***Napa River Trial Distribution
Program, 1998 Frost Season
February 1999
27 pages
Free***

This report describes the watermaster service provided by the Department under the Agreement for Trail Distribution on the Napa River during the 1998 frost damage season. The report includes information on State policies on the diversion of water in the Napa Valley for frost protection and describes legal action filed in the Superior Court of Napa County, the trial distribution, streamflow conditions, and regulations.

***Summary of Operations for Watermaster
Service in Northern California,
1997 Season
April 1999
156 pages
\$5***

This report is prepared annually to report on water supply conditions in Northern California. It includes information on water rights, water supply, service areas, and watermaster duties, and describes 15 service areas, sources of water supply, methods of distribution, and personnel used.

SOUTHERN DISTRICT Glendale

*For information about Southern District publications,
call (818) 543-4600*

***Draft Negative Declaration and Initial
Study, Sugarloaf Mountain Road
and Drainage Repair Project
May 1999
37 pages
\$7.50***

The Department proposes to install remedial drainage facilities over the Santa Ana Valley Pipeline on the northern and southern slopes of a saddle at Sugarloaf Mountain. The project would also regrade and pave a departmental road that provides access to an air vault at the top of the saddle.

***Watermaster Service in the West Coast
Basin, Los Angeles County,
July 1998-June 1999
September 1999
87 pages
\$6***

This publication is prepared annually to report on water supply conditions in the West Coast Basin. It includes information on groundwater extractions, use of imported and recycled water, replenishment operations, and administration of the Water Exchange Pool; and a financial report on Watermaster Service.

***Watermaster Service in the Central
Basin, Los Angeles County,
July 1998-June 1999
October 1999
117 pages
\$6.50***

The publication is prepared annually to report on water supply conditions in the Central Basin. It includes information on groundwater extractions, use of imported and recycled water, replenishment operations, and administration of the Water Exchange Pool; and a financial report on Watermaster Service.

ENVIRONMENTAL SERVICES OFFICE
Sacramento

THE STATE WATER PROJECT

The California Aqueduct

The history, features, and operation of the California Aqueduct are described. The main stem of the California Aqueduct consists of 385 miles of concrete-lined open canal and 59 miles of tunnels, siphons, and pipelines.

California's State Water Project

This color brochure briefly explains the importance of the SWP to California. It covers the SWP's history and financing, its benefits and facilities, and environmental projects.

California's State Water Project Booklet

This full-color 8 1/2 by 11-inch brochure explains the SWP in detail, including its construction, contracting agencies and their entitlements, capacity, bond financing and repayment, coordination with the federal Central Valley Project, electrical generation system, facilities, environmental programs, and plans for future development. It also includes a fold-out map showing the alignment of the SWP's facilities.

Project Operations Center

Get an inside view of the "brains" of the SWP. Read how water and power dispatchers monitor the communications network to remotely operate and control all major Project facilities.

State Water Project Location and Profile Maps

On the front of this 8 1/2 by 11-inch page handout is a map of the alignment of SWP facilities. On the reverse is a brief summary of why, where, when, and who paid for the SWP. It is also available in Spanish, Chinese, Japanese, and German.

State Water Project Publications Catalog

This 20-page brochure provides a description and photo of all the State Water Project publications. It also contains a tear-off order form.

Office of Water Education (continued)**SWP FACILITIES***Banks Pumping Plant*

Located in the Sacramento-San Joaquin Delta, Banks Pumping Plant lifts water 244 feet into the beginning of the California Aqueduct.

Coastal Branch

The Coastal Branch is the largest water development project undertaken by the Department in the past decade. This publication discusses how the system of underground pipelines, tunnels, and pumping plants serves water users in San Luis Obispo and Santa Barbara counties.

Devil Canyon Powerplant

Describes one of the largest hydroelectric power plants of the State Water Project.

Edmonston Pumping Plant

Describes the State Water Project's largest pumping facility, raising water nearly 2,000 feet up the Tehachapi Mountains through a series of tunnels into Southern California.

Feather River Fish Hatchery

Explains the hatchery's purpose and its design. The brochure explains how different hatchery facilities work and what happens during the artificial spawning operations.

North Bay Aqueduct

Explains the North Bay Aqueduct, part of the State Water Project, and the 27-mile underground pipeline serving municipal and industrial water users in Napa and Solano Counties.

Oroville-Thermalito Complex

Describes the Oroville-Thermalito Complex water storage and electrical generation facilities, their purpose, and operations.

Quail Lake

Explains how Quail Lake was created by cataclysmic movement of the San Andreas Fault and enlarged to move water safely across the San Andreas Fault.

San Luis Joint-Use Complex

Explains the San Luis Joint-Use Complex, which serves the California State Water Project and the federal Central Valley Project. The joint-use complex includes O'Neill Dam and Forebay, Sisk Dam, San Luis Reservoir, Gianelli Pumping-Generating Plant, Dos Amigos Pumping Plant, and a 103-mile portion of the California Aqueduct.

Office of Water Education (continued)

Skinner Fish Facility

Explains how the facility keeps fish away from pumps that lift water into the California Aqueduct and how the fish are transported back to the Delta.

South Bay Aqueduct and Lake Del Valle

A partially completed South Bay Aqueduct was the first SWP system to deliver water. In this brochure, learn how water is delivered from the Sacramento-San Joaquin Delta to Alameda and Santa Clara counties.

Warne Powerplant

Located on the West Branch of the SWP's California Aqueduct, Warne Powerplant was designed to recapture energy used to pump water over the Tehachapi Mountains. The publication discusses its power generation operations.

SAFETY AND THE STATE WATER PROJECT

Safety Along the State Water Project

Through this brochure, learn how to be safe while enjoying the SWP lakes and reservoirs, as well as along the California Aqueduct. The brochure points out hazards along the aqueduct and explains the "drownproofing" method.

Staying Safe on the California Aqueduct with Albert and Einstein

With the help of DWR's water safety mascots, Albert and Einstein, this brochure teaches children how to be safe while fishing along the California Aqueduct.

Water Safety Don't Leave The Pier Without It Poster & Order Form

This publication provides a photo and description of all water safety materials, including tear-off order form and bilingual water safety poster.

RECREATION AND THE STATE WATER PROJECT

California's Water

Find out what to expect when you visit DWR's three Visitors Centers: Lake Oroville Visitors Center, Romero Overlook Visitors Center, and Vista Del Lago Visitors Center. This promotional brochure also includes contacts and other SWP facilities to tour by arrangement.

Castaic Lake

Located in Southern California, Castaic Lake is the terminal reservoir on the SWP's West Branch. Castaic Lake and Castaic Lagoon, with their wide variety of water sports, are popular with Southern Californians.

Office of Water Education (continued)

Fishing Along the State Water Project

This brochure provides safety tips for the State Water Project, including the California Aqueduct. It also points out safety features built into the canal, lists fish found throughout California SWP reservoirs, and gives the locations of the Aqueduct's fishing access sites.

Lake Perris

The SWP's southernmost reservoir is explained in this publication, which also discusses the benefits it provides such as water storage and fish and wildlife enhancement. Lake Perris is also one of the most heavily used recreational lakes in the State Park system.

Lake Oroville Recreation

This handy brochure provides valuable information to the recreationist looking for things to do in and around the lake. One side describes the activities available and the other provides a detailed map of where and how to get there.

Oroville Visitors Center Promotional Flyer

Find out what visitors to the center can see and learn. It also includes information on recreation at Lake Oroville, contacts, and the Internet address of DWR's Lake Oroville Recreation Web site.

Pyramid Lake

This brochure describes Pyramid Lake, located along Interstate 5 in northern Los Angeles County. This lake provides water storage, flood protection, and recreation for Southern California. Part of it can be seen from Vista Del Lago Visitors Center, one of DWR's three information centers.

Romero Visitors Center Promotional Flyer

This flyer is designed for retail display near San Luis Reservoir. Overlooking San Luis Reservoir, the center provides a sweeping view of Sisk Dam which impounds the reservoir. Inside this Visitors Center are exhibits about the reservoir and the SWP.

Silverwood Lake

At an elevation of 3,555 feet, Silverwood Lake is the highest Project reservoir in Southern California. The publication describes how the lake provides water storage, fish and wildlife enhancement, and recreation.

State Water Project Recreation Facilities

This handy brochure lists the kinds of recreation available at different SWP lakes and reservoirs. It provides phone numbers and addresses of the parties responsible for recreation at each site.

Office of Water Education (continued)

Upper Feather River Lakes

The three Upper Feather River Lakes - Antelope, Frenchman, and Davis - provide local water supply, releases for fish habitat, and great fishing. This brochure explains the history, describes recreational opportunities, and provides statistics of each lake.

Vista Del Lago Visitors Guide

In this brochure, there is a self-guided tour of this water education center and a description of the exhibits in each of the center's rooms. It is also available in Spanish.

Vista Del Lago Visitors Center Promotional Flyer

This promotional flyer briefly describes the Vista Del Lago Visitors Center, its hours, and recreational opportunities.

OTHER BROCHURES

Be A Mentor

It describes DWR's Mentor Program and Mentor Characteristics.

Be Winter Wise!

Explains winter weather preparedness before, during, and after a storm.

California Department of Water Resources

Includes the Department's mission statement, major divisions and their responsibilities, and the State Water Project.

Easy Ways to Save Water in the Home

Describes three home water wasters and ways to conserve water.

Floodfighting at Home

One-page flyer explains how to fill a sandbag. It is also available in Spanish.

Flood Forecasting in California

Includes brief information about floods, how river forecasts are made, what forecasts are available, how to use a river forecast, and where to get a forecast.

Office of Water Education (continued)

WATER SAFETY

Albert and Einstein Life Jacket Poster

Through the “Wear a Life Jacket” message, Albert and Einstein show you objects that can be used as life preservers.

California Aqueduct Safety Poster

Through scenic photos of the California Aqueduct, the poster’s message is to be careful of the Aqueduct’s dangers.

Don’t Leave The Pier Without It Poster

This poster promotes the importance of life jackets when recreating in the water. It is also in Spanish.

Albert and Einstein Activity Book

From mazes to coloring pages, DWR’s water safety mascots Albert and Einstein take you with them on their journey along the California Aqueduct and to one of the many reservoirs of the State Water Project. Albert, a fish, teaches water safety tips to Einstein, a heron.

Student Workbooks

California Water Works...and Why It Does

A colorful comic book character, Professor Goodwater, leads students through the water cycle, showing them how water is delivered through California's built and natural water systems. Water conservation guidelines are also provided. Appropriate for grades 4-8. (Available in English and Spanish.)

The Safety Adventures of Albert & Einstein

The Department's safety mascots teach children water safety using puzzles and comics. Also available are Albert and Einstein pencils, pencil cases, rulers, and bookmarks.

Water and Me

This coloring and activity book for grades K-2 includes simple puzzles and matching activities that teach about water use, the importance of clean water, and the forms water takes. It includes a 2-page illustration of the water cycle.

Teacher's Guide & Student Workbooks

Water Fun

This colorfully-illustrated comic book has stories, games, and puzzles designed to teach students about the water cycle and water conservation. The teacher's guide has spinoff ideas, background information, and a water vocabulary list. Appropriate for grades 1-4.

Captain Hydro

(Teacher's guide is out-of-print)

This comic book story about Captain Hydro, hero of water conservation, is for grades 5-8. Captain Hydro battles his foe, the Water Bandit. The readings, worksheets, and projects teach about the water cycle, uses of water, water treatment, and conservation. The teacher's guide includes suggestions for follow-up activities and an extensive water bibliography. (Spanish version, *Captain Tlaloc*, is also available.)

The Further Adventures of Captain Hydro

In this colorful student comic book for grades 6-9, Captain Hydro continues to battle the Water Bandit. The teacher's guide is a resource of reproducible student worksheets and lessons about water in the context of world history and geography (ancient civilizations to 500 A.D). It includes a glossary of water terms.

Some Things Fishy

This teacher's guide of 12 lessons on salmon and steelhead covers such topics as anatomy, adaptations, life cycles, habitat, genetics, and the role hatcheries play. The lessons are meant to be used in the classroom before or after a field trip to the Feather River Fish Hatchery. The guide includes information on how to visit the hatchery and contains a glossary and a list of available supplemental resources. Appropriate for grades 4-6.

Hands-On Water Activities for Teachers

All About Water

This AIMS-style teacher's guide for kindergartners through third graders contains 26 lessons integrating science, math, language arts, geography, art, music, drama, and health. The major themes are Systems and Interaction, Energy, Stability, and Scale and Structure. Water topics include where water comes from, the water cycle, groundwater, water pollution, and conservation. A storyline can be used to connect lessons using puppets and scenery.

Water is Your Best Friend

This series of hands-on experiments is designed to (1) convey the internal roles of water in our bodies and in plants; (2) acquaint students with water in three different guises—solid, liquid, and gas (water cycle); and (3) introduce students to methods of collecting and storing water, water use and conservation at home and at school, and filtering water to clean it. It includes two black and white posters of the water cycle and California's water resources. Appropriate for grade levels K-3.

Teacher's Guide for Hands-On Water Activities

This guide features four hands-on water science activities developed by teacher Gil Yee. A water tape measure illustrates the world's distribution of water. A water polo activity teaches water surface tension. A Cartesian diver demonstrates how pressure to a plastic water bottle affects a floating eye dropper inside. Students can also make a Solo cup rain gauge. For teachers of grades 1-6.

Water Precious Water

These sample lessons from *Water Precious Water* were developed by AIMS. The guide includes a cooperative learning lesson in which students learn a variety of interesting facts about water and a series of four activities that deal with some of the properties of water. Appropriate for grades 4-6.

Flannel Board Stories

Flannel board stories include a script for teachers to follow, a vocabulary list of water-related words, and directions for making the flannel board and characters.

Water is Peter's Best Friend

This story is designed to help teachers explain the basic concepts of water to grades K-2. It teaches the importance of water, where it comes from, and why we should use it wisely, using the illustrated story of Willy the Water Droplet and his friend Peter as they explore the nature and uses of water.

Peter's Magical Water Journey

Designed to help teachers explain the basic concepts of water to students in grades 2-4. This story covers the water cycle, water uses, and conservation in more detail, using an older Peter and more illustrations than the K-2 version.

Wall Posters

One copy per teacher

How We Can Save Water

This colorful 24-inch by 16-inch poster illustrates ways we can save water (appropriate for all grades.)

California State Water Project Map

This map of California shows topography and the major natural and built water systems (federal, State, and local). It provides an overview of the SWP and shows various SWP facilities, including visitor centers. Appropriate for grades 4 and up.

Albert & Einstein's 'Wear A Life Jacket'

DWR's water safety mascots, Albert and Einstein, urge students to wear a life jacket and identify other objects that can be used as life preservers. Appropriate for grades K-6.

Water Cycle

This colorful poster illustrates the water cycle.

Resource Materials

Environmental Education Compendium for Water Resources

Co-produced with the Department of Education and other water organizations, this book provides 109 references to various water curriculum, giving each a report card grade based on

Educational Materials

teacher ratings. Pages include descriptive information on cost and how to order materials. Water topics include groundwater, wetlands, watersheds, water supply, water conservation, properties of water, the water cycle, water pollution, and water use conflicts. One copy per teacher.

Water Conservation Class Pledge with Stickers

This pledge, four sentences within a water drop, is a short verse students recite while pledging to use water wisely. Colorful stickers read “I Make Every Drop Count.” Appropriate for grades K-4.

Video Catalog

This catalog of DWR-produced videos describes access to the free lending library. The catalog includes two newly produced videos for children, *The Water Cycle* and *Water–Who Needs It?* Teacher activity packets are free.

Parent/Student Water Conservation Checklist

This question and answer checklist students can take home and review with their parents. It includes suggested actions and parent signature box. Appropriate for grades 4-8.

Water Facts & Fun

This catalog includes photographs and descriptions of the school education materials DWR offers free to teachers. The brochure opens up to a 22-inch by 17-inch water cycle poster and mail-back order form. This catalog is also available on the Web at:

www.dwr.water.ca.gov/ **and** clicking on Publications.

DIVISION AND DISTRICT REPORTS 1990-1999

A limited number of the following publications have been printed. When Department supplies have run out, they may be seen at Department offices and at legal depository libraries; or the Department will, on request, reproduce the publication upon payment of reproduction costs. The reports are listed below by originating office and in chronological order. Reports no longer in print are listed as O.P. (out-of-print).

OFFICE OF STATE WATER PROJECT PLANNING Sacramento

Title and Publication Date	Price
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, June 1995	Free
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, June 1996	Free
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, June 1997	Free
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, July 1998	Free
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, July 1999	Free

DIVISION OF PLANNING and LOCAL ASSISTANCE Sacramento

Title and Publication Date	Price
Stanislaus River Basin and Calaveras River Water Use Program - Scoping Report, January 1991	Free
Water Conservation News Index, Volume III (1990), February 1991	Free
Proposed South Delta Water Management Program, Temporary Barriers Project - Initial Study and Negative Declaration, February 1991	O.P
Well Permit Requirements, February 1991	Free
Urban Drought Guidebook, March 1991	Free
Groundwater in Fractured Hard Rock, Water Fact No. 1, April 1991	Free
State Water Project: Coastal Branch, Phase II and Mission Hills Extension, May 1991	
Volume I (Revised draft EIR, dated June 1990)	Free
Volume II (Public comments on draft EIR and response to comments)	Free
Industrial/Commercial Drought Guidebook for Water Utilities, June 1991	Free
California Bulk Drinking Water Haulers, July 1991	Free
Summary of Water Well Drillers' Reports Received from 1974-1990, July 1991	Free

Division and District Reports 1990-1999

Division of Planning and Local Assistance (continued)

Title and Publication Date	Price
7-Steps for Managing Groundwater Supplies, Water Fact No. 1, July 1991	Free
Early Life Stages and Early Life History of the Delta Smelt in the Sacramento-San Joaquin Estuary, with Comparison of Early Life Stages of the Longfin Smelt, August 1991	Free
Los Banos Grandes Facilities Sycamore Pilot Program, August 1991	Free
Los Banos Grandes Technical Summary of Engineering Features, August 1991	Free
Scoping Report for the Proposed Western Suisun Marsh Salinity Control Project, August 1991	Free
Water Recycling 2000, California's Plan for the Future, September 1991	O.P.
Results of a Spatially Intensive Survey for Potamocorbula amurensis in the Upper San Francisco Bay Estuary, October 1991	Free
San Joaquin River Management Plan, October 1991	Free
Trihalomethane Formation Potential in the Sacramento-San Joaquin Delta Mathematical Model Development, October 1991	2.00
Evaluate the Performance of Your Irrigation System, December 1991	Free
Groundwater Management Districts or Agencies in California, Water Fact No. 4, February 1992	Free
Adjudicated Groundwater Basins in California, Water Fact No. 2, February 1992	Free
California Laws for Water Wells, Monitoring Wells, and Cathodic Protection Wells, May 1992	Free
Model Water Efficient Landscape Ordinance, June 1992	O.P.
Water Audit and Leak Detection Guidebook, Water Conservation Guidebook No. 5, June 1992	Free
California Well Standards Questions and Answers, Water Fact No. 5, 1992	Free
Quality Assurance Guidelines for Analytical Laboratories, September 1992	Free
Los Banos Grandes Facilities Sycamore Pilot Project, Report No. 2, December 1992	Free
Estimating Water Requirements for Landscape Plantings, 1992	Free
Action Plan for San Joaquin Fall Run Chinook Salmon Populations, January 1993	O.P.
Water Conservation News Index, Volume V (1992), February 1993	Free
Annual Report of the Municipal Water Quality Investigations Program, Efficient Water Management Practices for Agricultural Water Suppliers and On-Farm Biological Mitigation Plan, March 1993	Free
How Much Water Has Your Crop Used Since Your Last Irrigation?, September 1993	Free
Coastal Branch, Phase II General Mitigation Plan, September 1993	Free
Water Transfers in California: Translating Concept into Reality, November 1993	Free
Helping Businesses Manage Water Use—A Guide for Water Utilities, December 1993	Free
Final Program Environmental Impact Report, State Drought Water Bank, November 1993	Free
Final Environmental Impact Report, Addendum 2, State Water Project and Mission Hills Extension, February 1994	Free

Department of Water Resources--Main Page

wwwdwr.water.ca.gov

Division of Flood Management

The Floodplain Management site provides information on state floodplain management guidelines and model ordinances.

www.fpm.water.ca.gov/

Bulletin 120

This site has the latest Bulletin 120 information. Bulletin 120 is a monthly publication containing forecasts of the volume of seasonal runoff from the state's major watersheds, and summaries of precipitation, snowpack, reservoir storage, and runoff in various regions of the State. This Web page will feature PostScript and HTML versions of the Bulletin and weekly updates.
